April 2023

Dear Cardiology Associates Patient:

As of July 1, 2023, Cardiology Associates will no longer be providing clinical or hospital services in Atmore. We truly regret that we have had to make this difficult decision.

We, unfortunately and unexpectedly, lost two physicians in 2020 which has created a challenge for our practice to continue to serve all our outreach locations. We have provided cardiovascular services in Atmore for over 25 years and have thoroughly enjoyed our time with our patients and working with the local physicians and medical staff at Atmore Community Hospital. Sadly, due to manpower issues, we can no longer continue our outreach services locally in Atmore.

Please be assured that we will continue to see you in any of our offices located in Baldwin or Mobile County should you continue your care with Cardiology Associates. It is our primary goal to provide you with the most comprehensive cardiovascular care in the area. If you decide to transfer your care to another provider, please know that your medical records will be available to you.

It is our objective to make this transition as favorable as possible. If you have an appointment scheduled in Atmore after July 1<sup>st</sup>, our office will contact you to re-schedule at one of our other locations or assist you in any way possible. If you need to schedule an appointment in the future, please contact us and we will be happy to assist you with that as well.

Finally, thank you for your confidence and trust in Cardiology Associates. If you have any questions at any time, please do not hesitate to contact us at: 251-607-9797.

Sincerely,  
 The Physicians of Cardiology Associates
